Newton, Mabel F

[University Settlement]

Dec. 1914

December 7th, 1914

Miss Newton,

University Settlement.

Dear Miss Newton:

I have just written to the Mayor with regard to the grant. Since returning from the West last week I have been so busy that I have not taken up the matter of your letter before this. I am referring it also to Mr. McLean.

If the Mayor answers favourably I suppose it would be necessary for us to be sure that our night dispensary can be conducted without interruption so that our staff of Doctors may always be relied upon. Possibly also if the City pays for the service the trouble that you mentioned to me some time ago with the City Nurses may be smoothed out.

I hope that things are progressing satisfactorily. With kind regards, I am,

Yours sincerely,

President.

18th Decemner 1914.

President Falconer,
University of Toronto.

Dear Sir,

At the last meeting of the Settlement Committee I was instructed to draft a letter to the Social Service Commisionto the effect of the enclosedfor your approval and signature.

The Committee felt that house to house begging was very general and the majority of the public were at a lossto know how to effectually help those that called on them, as the Social Service Commission has not the significancethat the old United Charities had to the general public.

I am,

Yours truly,

Mabel J. Newton.

Mr.Edwin Dickie,

Social Service Commission.

Dear Sir,

Since the United Charities has gone out of existencevery many people in the citydo not know where to send the names of peoplewho come to their houses begging or who approach them on the streets.

The numbers of these people have been very large for some time now and many citizens are in a difficult position regarding them, not knowing where to send them and not being willing to turn them away without being sure that they are undeserving.

Would it be possible for you to inform the public through the pressor in some other way,where we should send such persons and be sure that their needs will be looked after ? If your office is the proper place your phone number might be made known and address if necessary. Or ifthere is some other place or person to whom these cases shoud be referred some information as to how one can get in touch with them seems to be desirable.

Thanking you for your consideration,

Yours truly,

December 21st, 1914

Miss Newton,

University Settlement,

Toronto.

Dear Miss Newton:

I have sent a letter to Mr. Dickie as you have requested, and I hope that it may be effective.

With kind regards, I am,

Yours sincerely,

President.
